

Front

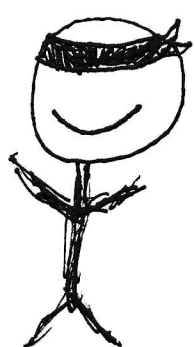

- knotted headband
- Front view, knot is noticeably smaller than in profile.
- Headband should be secured near top of head, not lower like a blindfold.
- No eyes, face is blank, other than the smile.
- Default expression is a simple, single line, when resting between actions.

Profile

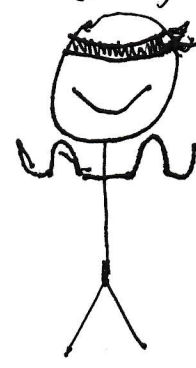

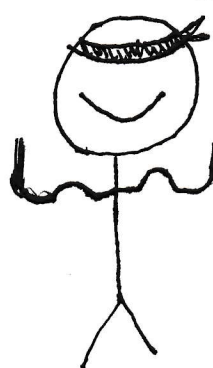

- longer knot/extra material seen in profile.
- facial expression still seen from side view.

Triumphant smile

- shown when he presents a sign
- also, when he flexes
- optionally, thicken his lines when he's emboldened.

The Flex

order - from 1
frame 2
frame 3
(peaks)
potentially flexes
extremities
on each arm

Heavy landing / Hero Landing
